

International Journal of Engineering and Science Invention

e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Evaluation of Ground Water Quality and Suitability for Irrigation Purposes Using Chemical Indices: A case Study for the Ground Water in the Western Part of Jifarah Plain Area, Libya	01-09
A Life Cycle Cost Analysis of Industry 4.0 Implementation	10-16
Croton tiglium Seed Oil –A Potential Source of ω -6 Fatty Acid from Arid Zone of Rajasthan	17-20
The Importance of Clathrates in the Karst processes	21-25
Optical Technology in Current Measurements as a Substitute to Inductive and Capacitive Measurement Transformers: A Case for the Nigerian Electricity Industry	26-31
Recent research on the law of rock deterioration damage by dry-wet cycle	32-35
Design and Fabrication of Water Weed and Garbage Cleaner	37-42
Medicinal Plants Used By Ethnic People Nizamabad District, Telangana State	43-49
