International Journal of Engineering and Science Invention (IJESI)

International Journal of Engineering and Science Invention (IJESI) is an international journal intended for professionals and researchers in all fields of computer science and electronics. IJESI publishes research articles and reviews within the whole field Engineering Science and Technology, new teaching methods, assessment, validation and the impact of new technologies and it will continue to provide information on the latest trends and developments in this ever-expanding subject. The publications of papers are selected through double peer reviewed to ensure originality, relevance, and readability. The articles published in our journal can be accessed online.

The Features of IJESI

- * Open access to all researchers
- *Fast publication process
- *Proper peer review process
- *Electromechanical Engineering
- *Suggestion to author if article need modification
- *Post-publishing work like indexing of each article to different database.
- *Journal publishes online as well as print version.
- *Print version dispatch to author within a week of online version
- *Journal provide digitally signed e-certificates to all author after the publication of paper

LIST OF JOURNALS :

- **International Journal of Engineering and Science Invention (IJESI)**
- **International Journal of Pharmaceutical Science Invention (IJPSI)**
- **International Journal of Business and Management Invention (IJBMI)**
- **International Journal of Humanities and Social Science Invention (IJHSSI)**

Submit your paper in Invention Journals

Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated by Invention Journals. All articles are subjected to a peer-review process. All submitted articles will be judged based on their quality Authors are requested to submit their articles in M.S Word format to online submission process on Invention Journals website www.ijesi.org

Terms of Submission

Papers must be submitted on the understanding that they have not been published elsewhere and are not currently under consideration by another journal. The submitting author is responsible for ensuring that the article's publication has been approved by all the other coauthors. It is also the authors' responsibility to ensure that the articles emanating from a particular institution are submitted with the approval of the necessary institution. Only an acknowledgment from the editorial office officially establishes the date of receipt. Further correspondence and proofs will be sent to the principal author before publication unless otherwise indicated. It is a condition of submission of a paper that the authors permit editing of the paper for readability.

Peer Review

All manuscripts are subject to peer review and are expected to meet standards of academic excellence. Submissions will be considered by an associate editor and if not rejected right away by peer-reviewers, whose identities will remain anonymous to the authors.

Paper Acceptance:

The final decision on publication is made by the Editor-in-Chief upon recommendation of the Editorial Board Members. If the manuscript is accepted for publication, it must not be published in any periodicals elsewhere without the permission of the editorial board
