Contents :

Some Properties of Induced Intuitionistic Fuzzy Sets on Complements	01-03
Bibhas Chandra Mondal	
3-D exponentially Casson fluid-driven flow under inclined magnetic field: A convergent series expansion	04-10
Emran Khoshrouye Ghiasi, Wuriti Sridha	
Lumped Parameter Method for Tip Clearance Control in High Pressure Compressors	11-21
Ekong, Godwin I.	
Design, Simulation and Performance Analysis of a 30 Mwe Parabolic Trough Power Plant in Yola, Nigeria	22-34
Alkasim, A., Anyebe, D.	
Development of a Grain Cleaning Machine for Sorghum and Millet	35-42
Yayock E. S., J. Shebayan, B. J. Bature	
Automation of Fuel Tank Level Monitoring and Measurement	43-49
Dr. Egho-Promise E.I., Nkrumah P., Adjei Twumasi C., Sododzie G., Senyo B.	
Hydrolysis of rice straw and rice husk for production of second generation (2G) ethanol	50-55
Heitor Suyama, Elenise Sauer	
Development of Sensor Based Automatic Irrigation in Agriculture Using IOT	56-61
Sumit Kumar Singh, Bhaskar Ranjan, Sudhanshu Singh	
Preparation and Properties of Genipin-Fixed Polysaccharide of Chamaedoris Auriculata (CDSPS)	62-72
Dr Gayatri Prasad
